# Interoperability Convergence:

## PHYSICIAN, FACILITY AND HOSPITAL ALIGNMENT

*Presented by NJHIMSS, ACHENJ, MSNJ, ONENJ*

Join us for this year's Spring Conference where the importance of working together is the focus. Hospitals, physicians and the entire management team need to find solutions to work together not only in the clinical setting, but also through IT.

This year's speakers will guide you to attaining this goal through a series of informative interactive presentations and displays by our vendors/sponsors.

Our Keynote speaker, Simon Samaha, M.D., was appointed president and chief executive officer of Summit Medical Group in 2009. Previously, Samaha was senior executive vice president and chief medical officer at Cooper University Hospital, Camden, N.J. Samaha received his medical degree from St. Joseph University in Lebanon. He received his MBA from New York University Stern School of Business and his master's in science in information systems from Drexel University. Samaha was named in Modern Healthcare's 2001 list of Up and Comers and is board-certified in internal medicine.
